

WeatherStation Central Otago Frost Forecast

Issued by: James Morrison
Date: 05 December 2016 7.00am

Situation

A northwest flow develops today then slowly strengthens tomorrow. A high dominates in the north Tasman Sea. A front pushes onto the South Island and slowly works its way northwards on Wednesday. A milder northwesterly airstream develops after that but a period of colder southerlies is likely from the weekend.

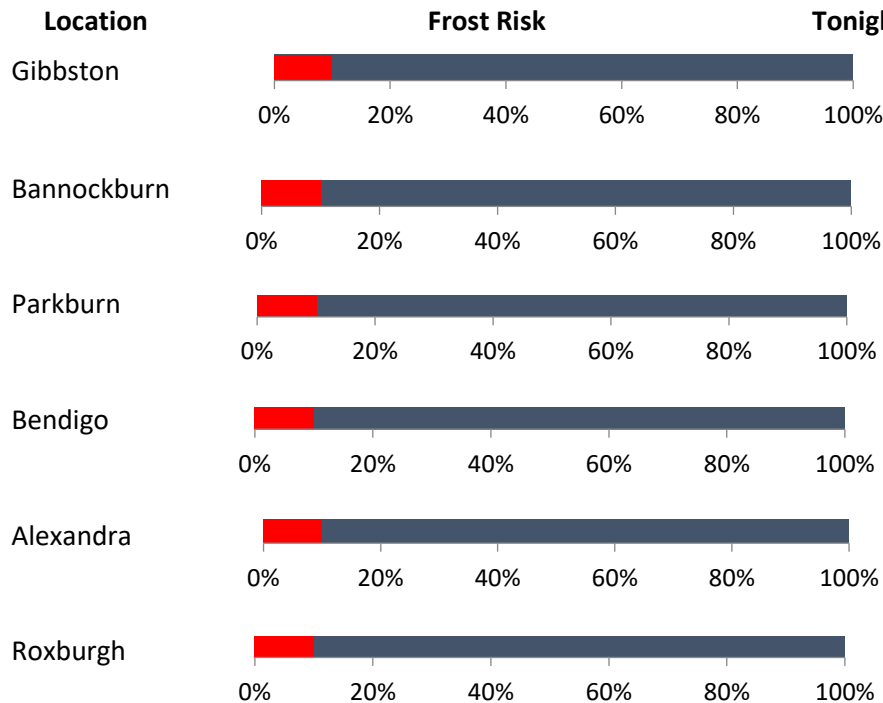

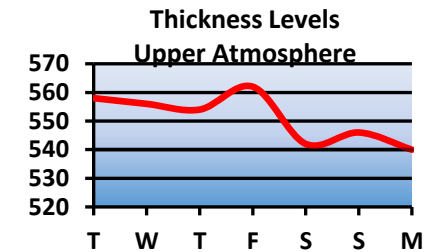

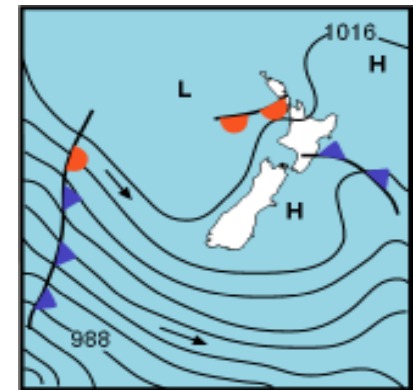

Tonight

Upper air temp Dewpoint Wind Thickness Levels

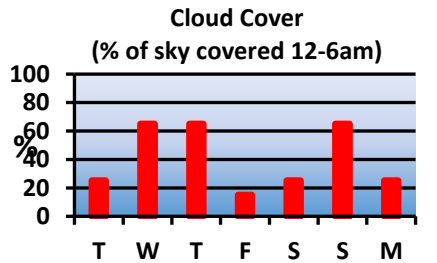

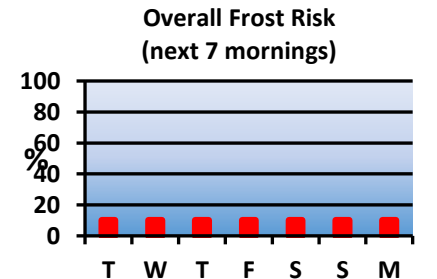

Fine at first then high cloud increases overnight. Mild northwest winds.

Tomorrow Night

Cloud increases from the north and west overnight. Some patchy rain develops north of Cromwell by dawn. North to northwest winds continue.

Location	Observations last 24 hours		
	Max	Min	Rnfl
Gibbston	20.4	5.3	0.0
Bannockburn	18.9	6.7	NA
Parkburn	21.1	5.0	0.0
Roxburgh	18.3	4.5	0.0
