

# WeatherStation Hawkes Bay Frost Forecast

Issued by: James Morrison  
Date: 27 November 2016 7.00am

## Situation

A strong westerly flow turns southwest today as a front spreads northwards up the country. The flow turns back to the west tomorrow as high pressure builds in the north Tasman Sea. The high slowly drifts east across the upper North Island and a weak front spreads north on Wednesday.

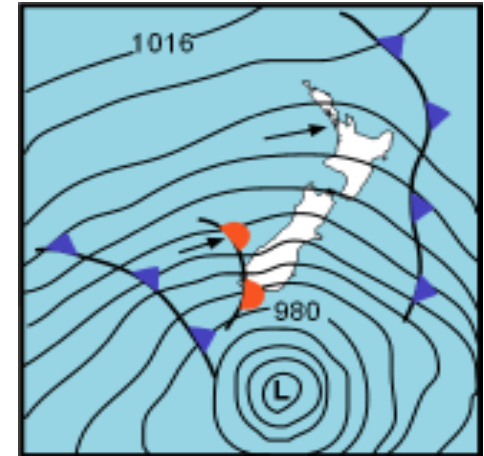

## Tonight

Upper air temp     Dewpoint     Wind     Thickness Levels

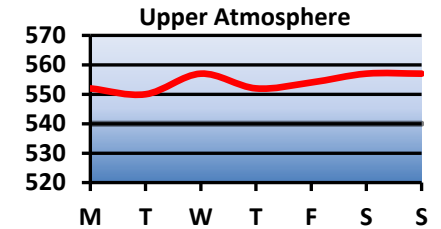

Cloud and the odd shower clearing overnight. Westerly winds turn southwest for a time and become quite light. Temperatures are mild at first then cool quickly for a short time near dawn.

## Tomorrow Night

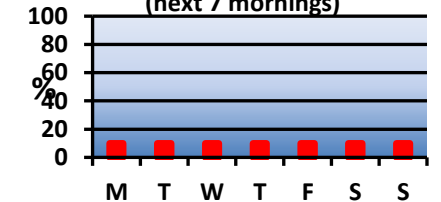

Fine with variable high cloud overnight. Breezy westerly winds.

Thickness Levels

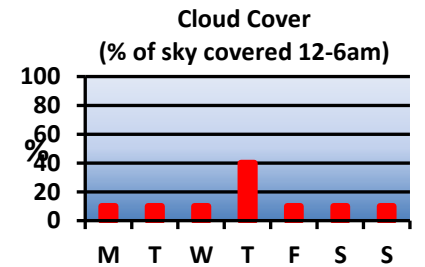

Overall Frost Risk (next 7 mornings)

Location	Frost Risk	Tonight	Tomorrow
Crownthorpe		8.5	9.5
